Dr Benny Lo, PhD is a Senior Lecturer of the Hamlyn Centre/Dept of Surgery and Cancer, Imperial College. His research mainly focuses on Pervasive Sensing, Biomedical Engineering, Micro-Electronics, Surgical Vision, and Machine Learning for healthcare, well-being and sports applications. He is one of the pioneers in pervasive sensing research and led a number of the translational projects on applying sensing technologies in clinical applications. His research work has been highly recognised by academic and industrial and led to numerous awards, such as the Best Paper award at BSN2019, the FAU’s Open Challenge, etc. He is an Associate Editor of the IEEE Journal of Biomedical and Health Informatics (J-BHI) and a member of the Editorial board of the International Journal of Distributed Sensor Networks (IJDNS). He is the Chair of the IEEE EMBS Wearable Biomedical Sensors and Systems (WBSS) Technical Committee and the Steering Committee member of the IEEE EMBS Standards Technical Committee.
